

APPADURAI M

Fresher – Backend Developer & Data Analyst | Python · SQL · Django · Power BI
Tirunelveli, Tamil Nadu, India | +91 8637605252 | appadurai491@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Software Engineer and Data Analyst with a strong foundation in Python, SQL, REST API development, and data-driven decision-making. Experienced in building full-stack web applications, designing relational databases, and developing Power BI dashboards for business intelligence and reporting. Skilled in data analysis, data cleaning, and visualization using Pandas, NumPy, and Power BI. Quick learner with strong problem-solving ability, committed to writing clean, efficient, and maintainable code.

TECHNICAL SKILLS

Languages: Python, SQL
Backend: REST Framework, JWT Authentication
Database: MySQL, SQLite
Data Analysis: Excel, Power BI, Power BI Service, Pandas, NumPy
Concepts: OOP, CRUD, Database Design, REST APIs, SDLC, Agile, Scrum
Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook, Google Colab
Deployment: Render, Vercel

EXPERIENCE

Python Developer – Capstone Project, Nxtlogic Software Solutions (Startup) May 2024 – Jul 2024
Employee Management & Task Tracking System

- Developed a full-stack web application using Python (Flask) and MySQL to manage employee records and task assignments.
- Implemented user authentication and role-based access control to secure application data.
- Built CRUD functionality for employee and task management, supporting create, update, and delete operations.
- Designed dashboards to track task status and employee performance in real time.
- Used Postman for API testing and GitHub for version control across the development lifecycle.

PROJECTS

Clinical Trial Analytics & Business Intelligence Platform Power BI, Power BI Service

- Developed Power BI dashboards and reports to analyze clinical trial data and support business decision-making.
- Designed interactive visualizations for KPIs including trial status, success rate, enrollment trends, and sponsor distribution.
- Automated report generation and exported insights to Excel for stakeholder review.
- Published dashboards to Power BI Service to enable secure, shared access.
- Impact:* Helped healthcare and pharma teams monitor KPIs and make data-driven strategic decisions.

Salary Intelligence Prediction System Python, Pandas, NumPy, Scikit-learn, Streamlit

- Built a machine learning application to predict employee salaries based on key attributes and provide actionable insights.
- Performed exploratory data analysis (EDA), data cleaning, and feature engineering on the source dataset.
- Trained and evaluated multiple regression models to identify the best-performing algorithm.
- Developed an interactive Streamlit web application for real-time salary prediction.
- Impact:* Enabled individuals and organizations to estimate salary ranges and make informed HR decisions.

EDUCATION

Bachelor of Engineering (B.E.), Computer Science and Engineering 2022 – 2026
Francis Xavier's Engineering College, Tirunelveli — CGPA: 7.0

Higher Secondary Education (12th Grade) 2021 – 2022
Sri Jayendra Golden Jubilee School — 60%

Secondary Education (10th Grade) 2019 – 2020
Sri Jayendra Golden Jubilee School — 55%

INTERESTS & HOBBIES

Interests: Cloud Technologies, Backend Development, Data Analysis, Business Intelligence
Hobbies: Photography, Photo & Video Editing, Tech Exploration, Continuous Learning
